

# *the Art of* **Deliberate Success**<sup>®</sup>

All organisational success is dependent on individuals firstly taking responsibility for their own personal success. By becoming personally successful, people develop an uncommon clarity about who they are, what they want to achieve, and how they can best contribute to their organisation. With this clarity comes a level of energy that translates into people and teams working in a focused and purposeful way to achieve extraordinary results. The Art of Deliberate Success<sup>®</sup> is a workshop (with integrated coaching) that teaches how to achieve this success in and out of work.

Created by international thought leader Dr David Keane, the workshop is built on over two decades of research and practical experience. It has been attended by thousands of people from all walks of life.

*“Any organisation that’s going to make it, has got to find a way to engage the mind of every single employee.”* Jack Welch

## *What's covered?*

*Successful people deliberately devote their attention to 10 key aspects of their professional and personal lives. Using the word ‘deliberate’ as an acronym along with the colour-coded, compass-like model, you too can apply the secrets of success in your everyday life.*

*Each deliberate letter is explored in detail allowing you to examine what success means to you and gives you the tools you need to make it happen. The program teaches a powerful way to integrate the 10 key behaviours of successful people so your professional and personal life is balanced and fulfilling.*
